

MSI expert SERIES

WEBINAR:

Cyber Security & Data Privacy

22 March, 17:00 GMT (London)

Duration: 45min

MSI is delighted to present its new series of webinars providing insights and expert knowledge on a variety of topical issues important to MSI members and their clients.

The first webinar of the 'MSI Expert Series' will focus on Cyber Security & Data Privacy.

Don't miss out on this exclusive webinar, which will provide you with important information, tools and updates on cyber security and data privacy matters that firms and their clients should be considering now:

- Why should firms care about cyber security now more than ever before
- Adopting a strategic view: How to fight a never-ending battle
- Elevating responsibility and authority to the right level of seniority
- Building a roadmap from current state to a target operating model

Hosted by Andrew Leck, CEO of MSI Global Alliance, the webinar will feature three expert panellists providing practical advice and answering your questions:

Jeremy Hyman, Principal
at *Jeremy Hyman Associates*

Ozgur Ozguven, Associate
at *Jeremy Hyman Associates*

Toby Woodhead, Head of Technology
at *Armstrong Watson (MSI member firm)*

The webinar will take place on Tuesday, 22 March 2022 at 17:00 GMT.

All participants will receive a free checklist to do their own self-assessment on their existing approach to cyber security & data privacy.
